

# samaritan® PAD 360P

## Fully Automatic Public Access Defibrillator

### Compact, Easy-to-Use, Lifesaving Technology

Sudden Cardiac Arrest (SCA) is a leading cause of death globally. As response time is critical for survival, the use of an AED can increase the survival rate from 5% to up to 70%, if used within the first few minutes of the SCA.

The samaritan® PAD family of public access defibrillators is designed especially for use in public areas by providing a sophisticated defibrillator for adult or pediatric use, inside a lightweight and easy-to-operate system. Offering all the key features of the samaritan PAD products, the samaritan PAD 360P is a fully automatic defibrillator designed to analyse heart rhythm and automatically deliver a life-saving electrical shock (if needed). The SAM 360P also includes a motion detection feature to warn users of excessive or unexpected patient movement.

### Compact in Size, Long on Ability

**Portable and lightweight.** The samaritan PAD 360P is lighter (1.1 kg/2.4 lbs) and smaller than other defibrillators.

**Durable.** The samaritan PAD 360P resists shock and vibration and carries an IP56 Rating, the industry's highest rating against dust and water ingress. It also carries a ten year unit warranty.

**Advanced technology.** The samaritan PAD 360P utilizes proprietary electrode technology, advanced and stable firmware, and proprietary SCOPE™ Biphasic technology (an escalating and low-energy waveform that automatically adjusts for patient impedance differences) to assess rhythm and defibrillate if necessary.

Advanced technology balanced against the demands of real world use. At HeartSine®, our innovation changes lives. And saves lives.

\* Self-Compensating Output Pulse Envelope (SCOPE™) technology automatically compensates energy, slope and pulse envelope for the patient.

### Easy-to-Follow Visual and Verbal Guides

**User-friendly.** The samaritan PAD 360P features easy-to-understand visual and voice prompts that guide a user through the process including CPR coaching.

**One-button operation.** The samaritan PAD 360P only has one button – ON/OFF, ensuring straightforward operation for all levels of rescuer.

**Automatic Shock Delivery.** After analysing heart rhythm, the samaritan PAD 360P will automatically deliver a shock (if needed), eliminating the need for the rescuer to push a shock button.

**Always ready.** A System Status Ready Indicator flashes to show that the complete system is operational and ready for use. The device automatically runs a self-check each week.

### Real Economy for the Real World

**Two parts, one expiration date.** Pad-Pak™ cartridge combines battery and electrode pads, with one expiration date to monitor.

**Low cost of ownership.** With a shelf life of four years from date of manufacture, the Pad-Pak offers significant savings over other defibrillators that require separate battery and pad units.

**Pad-Pak and Pediatric-Pak with pre-attached electrodes.**

The HeartSine PAD's built-in intelligence and unique pediatric Pad-Pak ensure the appropriate energy level is delivered for children.
